

## Prayer Time

- The style should be smaller on the main page.
- The placement of the countdown needs to be decided.
- Four more PNG logo images are required.
- The prayer time table design needs slight adjustments — add a background color for the heading area and make sure all prayer times display correctly.
- The small circular button needs to be connected to the database as well. Only daily and weekly prayer times should be accessible — no one should be able to view monthly or yearly data.
- This circular button must appear on all pages.
- Mobile view: the “Donate Now” button should appear on the right, and the prayer time circle button on the left.

---

## Header Area

- In mobile view, a Login button is required next to the menu.
- The IAOS logo should be larger (maximum possible size) and should link back to the homepage when clicked.
- The Become a Member button should be changed to Login.
- The Donation button should be renamed Donate Now.
- The Education dropdown menu is not needed — all education programs should go under a single page.
- The Halaqah page is not needed since it already appears in the table.

---

## Banner & Poster

- Left and right navigation controls are required.
- In Poster if some one click therer msg or website link come up

- 
- Favicon logo need to be change Green BG with with logo inside , I hav it will share with u or we can use urs

If possible, on the homepage , make the white line thinner (e.g., in the “Our Services” and “Upcoming Events” sections).

- For Our Services and Events, make the text always visible (not only on hover) — find a clean, attractive way to display
- location of 4 boxes ( Today Prayer, Haaqah , Events, Jummah prayer time by mosque

---

## Footer

- Connect the Quran Online and Hadith Collection APIs (we already have them).
- Under Download Our Application, remove the QR code, but make sure the Google Play and Apple Store buttons link correctly.
- Connect all social media pages.
- Ensure all Quick Links work properly.

---

## Additional Functionality

- When someone clicks Live Makkah or any YouTube link, it should open and play within the same section, not on a new page.
